

QUALITY POLICY

MAIVISA, a company dedicated to the design and manufacture of metallic pressure process equipment, is taking on the challenge of implementing a policy of continuous quality management and improvement, both for the equipment manufactured and for the service it provides to its customers.

For this reason, MAIVISA adopts, at all levels of its organization, the Quality Management System derived from the application of the international standard EN ISO 9001:2015, without exception.

MAIVISA is also committed to supporting this Quality Policy by providing all the necessary physical elements and resources required to motivate and train its own personnel, who are ultimately responsible for ensuring the correct application of the aforementioned Standard.

MAIVISA undertakes to complying with all requirements, whether those of the Customer or applicable legal or regulatory requirements.

The ultimate goal is to provide our clients with a product that meets the most demanding recognized standards to design it and with service conditions that are completely satisfactory to them, both of which are essential to ensure the company's viability in the future. MAIVISA is committed to full compliance with the applicable legal and regulatory requirements and those of our clients. Continuous improvement is the philosophy that guides our approach at all times.
